

HIGH FIVE CLUB

changing lives, £5 at a time

School Desks, Uganda

Working in collaboration with our long-term community partner in Uganda, **ABATO Children's Trust** www.abato.org, we have extended our reach into a very impoverished rural area of Kayunge District, where we have helped improve the learning environment at the very humble **Galilee Junior School** run by Galilee Community Ministries.

The 120 pupils at this very basic 4-classroom school were being taught sat on the floor, as they could not afford desks and chairs.

We provided them with a small grant of £576 to purchase the wood and to contract a carpenter from the local community to make 40 x 3-seater desks and benches for the school. The budget also stretched to enable them to also make doors to provide privacy for the school's 3 toilets. Now all children at the school have an improved classroom environment that is more conducive to learning. **For further information contact cheryl@highfiveclub.co.uk**
